SUMMARY

Mechanic/Electrician, adept at transforming plans, drawings, and specifications into successful electrical repairs and installations. Detail-oriented Electrician offering customers a strong blend of technical skill and creative aptitude in solving unforeseen electrical issues. Conscientious Electrician committed to safety in hazardous and restrictive workspaces. Tackles projects with skill and accuracy. Motivated Electrician who completes projects on time and uses professional-level skill and trade knowledge to demonstrate superior performance on job sites. Versatile electrician specializing in both high and low voltage electrical system repair and maintenance.

SKILLS

Troubleshooting, Pipe Installation Expertise, National Electrical Code Knowledge, Knowledge Of National Electric Code (NFPA 70), Blueprint Fluency, Exceptionally Detail-oriented, Electrical Provisions

WORK EXPERIENCE

Mechanic/Electrician

ABC Corporation - June 2015 - June 2018

- Installed, tested and modified circuit breakers, controls, fuses, lights and motors.
- Interpreted drawings, wiring diagrams, flow charts and written descriptions of the project requirements.
- Worked with various types of cableways, conduits and other electrical raceways.
- Consulted with the supervisor electrician regarding the likely risks associated with the assigned job.
- Demonstrated expertise in the use of cable reels, stripping tools, voltage detectors, crimping tools and wire and cable cutters.
- Inspected or tested damaged machine parts, and mark defective areas or advise supervisors of repair needs.
- Start3e machines and observed mechanical operation to determine efficiency and to detect problems.

Senior Electrician

ABC Corporation - April 2005 - April 2015

- Performed commercial/residential wiring and mechanical repair of machine-shop equipment.
- Responsible for the repair and maintenance of ac, dc, single, and 3-phase motors, rewinding, clutches, and brakes.
- Cultivated excellent relationships with clients, resulting in a strong base of referral business.
- Developed expertise in communication systems cabling, circuitry, and wiring through various projects for public utility companies.
- Performed general electromechanical repairs on client systems and equipment, ensuring adherence to code requirements.
- Implemented energy-efficient solutions that saved clients hundreds of thousands of dollars annually.
- Installed and assembled cabinets, boxes, and enclosures for electrical systems under my own supervision.
