## SUMMARY

A position within the engineering field in Land Surveying And Topography; where I can expand professional and Educational experience, while making significant Contributions to the success of employer.

## SKILLS

Microsoft Office, Apple.

## WORK EXPERIENCE

### Land Surveyor/Consultant

ABC Corporation - March 2002 - March 2004

- Directed surveys to define topographical elevation for placement of mud mats, footers, and columns.
- Verified the accuracy of survey data based on acceptable tolerances.
- Evaluated elevation and location of footer concrete forms and rebar prior to pours.
- Calculated final adjustments to ensure protruding bolt locations are within an acceptable tolerance.
- Coordinated surveys and directed the workforce to alter placement for the elevation of concrete forms, rebar, and bolt locations outside of tolerance.
- Transferred elevation benchmarks throughout the site to verify coordinates of control points to maintain the spatial accuracy of all other survey points after a seismic event.
- Maintained and calibrated survey equipment in difficult environments to maintain accuracy and efficiency.

### Land Surveyor

ABC Corporation - 1998 - 2002

- Work involved- Land Survey Office Crew Leader on Grid Spot Levels and formation levels for the large Boat Show Project; assisting Senior Surveyors on all surveying jobs including surveys, setting out, also solving problems and decision making housing,.
